Moderators/Speakers:

The moderators selected have extensive knowledge in their areas of interest. The aim of the scientific sessions is to keep urologists abreast of the changes and developments in clinical urology as well as create dynamic scientific discussions. Speakers are asked to be ready and near the podium if the next presentation - to avoid delay/down-time. Thank you.

CALIFORNIA RADIOLOGY CREDITS

California Radiologic License Renewal While Attending the WSAUA Annual Meeting Earn up to 28.5 Credits

Instructions

1. Go to WSAUA Website - surgewest.org
2. Click on "CME/Evaluation" - then select
3. "CUA/ASRT Radiology Credits" Form to print
4. Print form, email to info@cuanet.org

The California Urological Association is pleased to announce that it has been able to obtain radiology credits thru the American Society of Radiologic Technologists (ASRT) for ASRT approved sessions during the WSAUA meeting.

Registered urologists will be able to obtain Category A Credit for Fluoroscopy / X-ray license renewal by attending ASRT approved sessions while at the Western Section Annual Meeting. Note: 10 CEU are required to satisfy the California Department of Public Health requirement for renewing permits and certificates in radiographic technology.

Simply complete the ASRT Attestation Form on Whova Access site to claim your credits and your certificate will be emailed to you.

This is a benefit made possible from the California Urological Association, making the ASRT certificates free to all urologists this year. The value of this certificate is approximately \$260.

CELEBRATING 100 YEARS!

Centennial cheers to the Western Section community!

Be a Part of our 100th Anniversary Digital Yearbook!

See us at the
Gather Voices Kiosk
(near the main ballroom)

Our 100th anniversary would not be complete without recognizing and celebrating those at the meeting and those who have contributed to our association over the years.

That is why you are invited to make a short video with reflections about the meetings past or present, being involved in urology, a story or experience or just a word of congratulations and saying hello to everyone – but most of all having fun! And don't worry it won't be shared until you are happy with the recording.

Stop by see us at the Gather Voices kiosk near the main ballroom entrance - it's super easy and you can make more than one video if you want. Videos will be available on our Whova Meeting App.

BONUS: Once you submit your video you will be automatically entered into a drawing for a \$200 Amazon gift card to be done daily (Monday to Thursday) during the meeting at the ExpoLab Aloha Happy Hours.

DEI Advocate Roundtable Discussion

(RSVP Required to chentony@stanford.edu)

Monday, October 28, Kuhio Room

2:30 PM – 3:30 PM

Facilitators: Kathleen Kieran, MD & Tony Chen, MD

Inaugural round table discussion session for departmental leaders in Diversity, Equity, and Inclusion (DEI). The goal is to foster the sharing of programming ideas and best practices across institutions, and to strengthen the network of DEI champions across Western Section AUA Urology programs.

Invitations will be sent to WSAUA district representatives. Please RSVP ahead of time to chentony@stanford.edu as the number of participants may be limited to ensure that all voices can be heard.

Objectives:

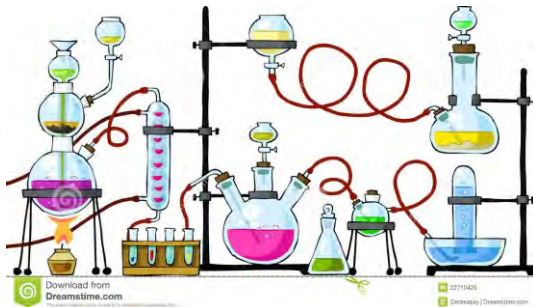

- To foster networking and collaboration among DEI leaders from different institutions across the AUA Western Section.*
- To share and highlight local resources, tools and successful practices that have been effective in promoting DEI efforts within Urology departments.*
- To encourage advancing DEI initiatives locally, regionally, and nationally within the field of Urology.*

SEEKING NON-SURGICAL ALTERNATIVES FOR PATIENTS WITH NON-MUSCLE INVASIVE BLADDER CANCER CARCINOMA IN SITU?

ANKTIVA® is a first-in-class immunotherapy that activates the body's natural killer (NK) and killer T cells to attack tumor cells. Used in combination with BCG, it also leads to the generation of memory T cells and durable complete response rates that exceed 47 months for some patients.¹

- 62% CR any time
- 58% & 40% CR at 12 months & 24 months, respectively¹
- 94% of all study participants were alive at 24 months²
- Same administration procedure as BCG
- Maintenance for use up to 37 months
- Well tolerated, safety profile consistent with BCG alone

Please see full Prescribing Information for ANKTIVA

¹ ANKTIVA Prescribing Information, ImmunityBio Inc., 2024; Represents the upper limit of the range of duration of response.

² Chamie K, et al. IL-15 Superagonist NAI in BCG-Unresponsive Non-Muscle-Invasive Bladder Cancer. NEJM Evid. 2023 Jan;2(1): EVID02200167. doi: 10.1056/EVID02200167

“The combination of ANKTIVA and BCG represents a significant new treatment option for NMIBC CIS patients facing a possible cystectomy; In our QUILT 3.032 study, in responders the probability of avoiding cystectomy at 24 months was almost 90%, and close to 85% in the total population.”

— Karim Chamie, M.D., Associate Professor of Urology at UCLA and principal investigator for the QUILT 3.032 study.

INDICATION AND IMPORTANT SAFETY INFORMATION

INDICATION AND USAGE: ANKTIVA is an Interleukin-15 (IL-15) receptor agonist indicated with Bacillus Calmette-Guerin (BCG) for the treatment of adult patients with BCG-unresponsive nonmuscle invasive bladder cancer (NMIBC) with carcinoma in situ (CIS) with or without papillary tumors. **WARNINGS AND PRECAUTIONS:** Risk of Metastatic Bladder Cancer with Delayed Cystectomy. Delaying cystectomy can lead to the development of muscle invasive or metastatic bladder cancer, which can be lethal. If patient with CIS do not have a complete response to treatment after a second induction course of ANKTIVA with BCG, reconsider cystectomy. **DOSAGE AND ADMINISTRATION:** For Intravesical Use Only. Do not administer by subcutaneous or intravenous routes. Instill intravesically only after dilution. Total time from vial puncture to the completion of the intravesical instillation should not exceed 2 hours. **USE IN SPECIFIC POPULATIONS:** **Pregnancy:** May cause fetal harm. Advise females of reproductive potential of the potential risk to a fetus and to use effective contraception. **ADVERSE REACTIONS:** The most common (≥15%) adverse reactions, including laboratory test abnormalities, are increased creatinine, dysuria, hematuria, urinary frequency, micturition urgency, urinary tract infection, increased potassium, musculoskeletal pain, chills and pyrexia.

For more information about ANKTIVA, please see the Full Prescribing Information at www.anktiva.com.

You are encouraged to report negative side effects of prescription drugs to FDA. Visit www.FDA.gov/medwatch or call 1-800-332-1088. You may also contact ImmunityBio at 1-877-ANKTIVA (1-877-265-8482)
